Digital technologies - why they are important in the provision of care to either adults or children and families

- Digital technology enables self-care, gives access to information about healthy lifestyles online and through mobile apps. Information can be directed to specific age groups/genders.
- Information and data can be accessed/shared more quickly, improving outcomes.
- Bio-monitors can measure blood pressure/glucose levels giving patients more control and medical professionals detailed information to support care.
- It can enhance independence through advanced prosthetic limbs, and reduce recovery time through keyhole surgery and robotics.
- Artificial intelligence can be used to support speech where people have speech difficulties.
- There are many more advantages to digital technologies that you can read about in **Block 6 Digital technologies and innovation.**
- Although technology will be all our futures, it is also important to consider some of the disadvantages, and write about these in your essay (if you choose this topic) so you present a balanced view.

Can you think of some of the disadvantages?

Stereotyping and Discrimination

What evidence from the module materials suggest that certain groups are stereotyped negatively are more likely to face discrimination?

What is the potential impact of discrimination on an individual?

What can HSC services do to ensure individuals are not discriminated against?

Service user voice/experts by experience

- What is meant by the term 'experts by experience?'
- What are the advantages of care services working together with service users?

Use the draw tool to add in your suggestions below:

Notetaking: what works for you?

Consider the following notetaking techniques:

Spider diagram

Mind mapping

Outlining method

Highlighting of text and notes in margins

Any others?

Why make an essay plan?

Essay plans are about to become your new best friend

- Time preparing a good essay plan is well spent, as it will increase your chances of writing a well structured essay
- It will help you decide what to put in your essay before you write it.
- Your essay will have perfect structure and read in logical order because you decided what each paragraph was about already.
- You won't need to waste time thinking of what to write next, its all in your plan.
- You won't forget to include important points because you jotted them in your essay plan before you started.
